REQUEST TO CONSIDER AND INITIAL A REFERENCE FILED ON OCTOBER 8, 2010

In the Final Office Action mailed on December 27, 2010, the Examiner said: "In the IDS filed on October 8, 2010, NPL document 9 has not been considered (denoted by the strike-through) because 37 CFR 1.98(a)(2)(ii) requires that a legible copy be provided. However, the copy provided is very difficult to read and some parts are completely illegible".

The Applicant's attorney encloses the best available copy of the reference identified by the examiner as NPL document 9, entitled "**Design Patterns Elements of Reusable Object-Oriented Software**" by Erich Gamma et al, in the Supplemental Information Disclosure form filed herewith, and, therefore, requests that the Examiner consider this reference along with the other references, and indicate his consideration of this reference by returning a signed or initialed copy of the IDS form
